

## INDEPENDENT

Proudly independent brewers with over 25 years experience as craft lager specialists. Our ethos has never changed and we never compromise on a great beer, always brewing with a conscience.

## NATURAL

All our beers are naturally carbonated, unpasteurised and 100% vegan friendly. We mature our lagers for longer for a fuller flavour and filter our beers without excessive processing or animal products.

## SUSTAINABLE

We brew beer for the better. We naturally filter all our waste water through reed beds and donate our spent grain to farms. We use energy efficient brewing methods and brew with our own natural spring water.
